Deep Ties to MENA Region

Our deep-rooted ties to the MENA region enable us to align strategic and legal imperatives with local nuances and emerging opportunities seamlessly. We facilitate transformative deals and foster sustainable growth trajectories, helping deliver capital to companies at their most critical junctures. Over the past years, we've spearheaded numerous venture capital and growth equity financings, raising capital for innovative companies across MENA. Our network includes entrepreneurs, executives and investors who travel frequently and seamlessly between tech hubs in Silicon Valley and the Middle East as well as individuals, companies and groups with close ties to the MENA region. We also partner with accelerators and organizations like Flat6Labs, Endeavor and Techwadi.

Cross-border Counsel for Investors

Investors benefit from our unparalleled proficiency in cross-border portfolio investments. We've worked with many US-based venture capital firms as they invest in companies in the MENA region, including Tiger Global, 4DX, Quona, Arbor and Prosus, as well as local investors like the Dubai Future District Fund, guiding investments worth tens of millions of dollars. With a keen understanding of local market dynamics and regulatory frameworks, we help strike the perfect balance between the interests of investors and portfolio companies, ensuring optimal outcomes amidst evolving market trends. We also work with local counsel as needed to ensure our clients are receiving the best global and local advice.
