

# Zarminali Health Announces \$40M Seed Financing to Improve Pediatric Care

Client News

November 20, 2024

Gunderson Dettmer represented client Zarminali Health, the first outpatient pediatric destination purpose-built to provide seamless and coordinated primary and specialty care nationwide, in its \$40 million Seed financing led by General Catalyst. Zarminali was formed to deliver a renewed promise for pediatric care by streamlining care journeys for families, improving health outcomes for children, and enabling pediatric clinicians to focus on delivering quality care to their patients. The new capital will be used to fuel the company's go-to-market vision and continue to support the opening of its initial locations in fall 2024 and beyond.

In the [announcement of the transaction](#), Zarminali founder Danish Qureshi said, "Zarminali is being painstakingly designed by parents like myself who have struggled against the current flaws of our healthcare system and know that every child deserves amazing care, from birth to adulthood. After navigating the broken system with my daughter, I wanted to apply my experience transforming outpatient mental healthcare at LifeStance to improving pediatric care on a national scale. This initial funding round is an immense validator and kickstarts our mission to create a world where every child's health journey is seamlessly coordinated, where advanced technology enhances every interaction, and where our clinicians and team members support each family every step of the way."

The Gunderson Dettmer deal team was led by Randall Clark and included Aliya Sanders, Valerie Wood, David Koenig and Olivia Aulicino.
