## Client News

January 28, 2026

Gunderson Dettmer represented Avenue Growth Partners as the lead investor in the \$12 million Series A financing of Datatruck, the AI-native operating system for North American long-haul carriers.

Avenue's investment reflects its conviction in Datatruck's customer momentum and differentiated approach to applying AI inside mission-critical trucking workflows. The new capital will be used to deepen Datatruck's AI capabilities, expand its product and customer-facing teams, and continue scaling across the North American long-haul carrier market.

"Datatruck stood out to us because customers are already using its AI agents to drive real operational efficiency, not just experimenting with them," said Ryan Russell, Founding Partner at Avenue, [in the announcement of the transaction](#). "This is an AI-native platform taking share in a market that's ready to move beyond legacy systems, and we're excited to partner with the team as they scale."

The Gunderson deal team was led by Zach Crowe and included Caitlin Walsh.
