February 3, 2026

Gunderson Dettmer represented Galadyne, a modern defense company redefining missile architecture, in its **\$4.8 million pre-seed financing**. The round was led by Andreessen Horowitz with participation from Pax Ventures.

Galadyne is rebuilding missile systems for production at scale - leveraging liquid propulsion to unlock higher manufacturing rates, lower unit costs, and more capable platforms for the United States and its allies. The company will use the new capital to fund early development, testing, and prototype deliveries.

The Gunderson deal team was led by Joe Berklund and included Alex Weaver and Jasmine Daniel.
