

Fast Company Recognizes 19 Gunderson Dettmer Clients on 2026 World's Most Innovative Companies List

Client News

March 24, 2026

Fast Company recognized 19 Gunderson Dettmer clients on its [2026 World's Most Innovative Companies](#) list, an annual ranking of innovative companies covering 59 industries and sectors. This year, Gunderson Dettmer's clients were recognized in 17 industries from agriculture to biotech to energy.

Congratulations to the following companies:

- [Addi](#), a buy now, pay later platform dual headquartered in Bogota, Colombia and São Paulo, Brazil.
- [AtmosZero](#), a developer of a modular drop-in electrified steam heat-pump boiler designed to use significantly less electricity than traditional electric boiler services.
- [Chainguard](#), a leader in supply chain security for open source software.
- [Cosm](#), a developer of a global technology platform designed to allow people to experience entertainment in a new way.
- [Daloopa](#), a developer of a document automation and data extraction platform designed to automate workflow for complex, large-volume, and mission-critical tasks.
- [Element Biosciences](#), a developer of genetic analysis tools for the research and diagnostics market.

- **Euclid Power**, a developer of software and services that simplifies the financing, development, and management of renewable energy projects.
- **Findem**, a talent acquisition candidate relationship management platform designed to empower talent teams to build companies.
- **Framework**, a developer of lightweight laptops and consumer electronics products intended to make electronics more planet-friendly.
- **Glacier**, a technology company on a mission to end waste by using AI-powered robots to make recycling more efficient, profitable, and circular.
- **Juniper Square**, a developer of an integrated platform designed to streamline private partnerships.
- **Little Leaf Farms**, a producer of greenhouse-grown lettuce intended to supply the locally grown baby greens all year round.
- **May Mobility**, a developer of an autonomous technology intended to offer accessible self-driving transportation.
- **Opus Training**, a hospitality training platform.
- **Pendo**, a developer of a customer engagement analytics platform designed to optimize trial conversions and user onboarding in-product.
- **Rogo**, an AI company focused on finance that streamlines workflows, drafts memos and generates models and PowerPoints to help individuals spend more time on things that make investment banking and investing interesting.
- **SamaCare**, a developer of a prior authorization tool designed to reduce the administrative burdens that harm patient care.
- **Sharebite**, a corporate food ordering platform.
- **Synchron**, a developer of an implantable stent-rod designed to create a brain-computer interface.
