GUNDERSON DETTMER

Integrity Growth Partners Leads Prevalent AI's $22 Million Growth Investment

Client News

August 19, 2026

Gunderson Dettmer represented Integrity Growth Partners as the lead investor in the $22 million growth financing of Prevalent AI.

Prevalent AI is an AI-powered data fabric company that provides the organizational context enterprises need to securely operate, reliably deploy AI, and make decisions with confidence. IGP's investment will support Prevalent AI's next phase of growth, enabling the company to scale its global go-to-market organization, accelerate U.S. expansion, strengthen its leadership team, and extend beyond cybersecurity into broader enterprise risk use cases.

"Paul, Arun, and the team have built something rare: genuinely differentiated, AI-native technology that the most sophisticated enterprises in the world rely on, all while maintaining remarkable capital discipline," said Ryan Anderson, Managing Partner and Co-Founder at IGP, in the announcement of the transaction. "As enterprise security stacks grow more complex and agentic AI raises the stakes on data quality and depth, the need for Prevalent AI's unified, context-driven foundation will only intensify. We have deep respect for what the founding team has built, patiently and with real substance, and we are proud to partner with them as they lead the company into its next stage of growth."

The Gunderson deal team was led by Zach Crowe.
